### Journal of Sustainable Energy Engineering

## Journal of Sustainable Energy Engineering

### Scope

The *Journal of Sustainable Energy Engineering's* (JSEE) mission is to publish peer-reviewed, original research seeking sustainable methods of worldwide energy production through engineering, scientific, and technological advances. As the world moves into a new era, searching for sustainability from both environmental and economic points of view, there is increasing attention on renewable energy, such as wind, solar, and geothermal, while there is still a strong dependence on fossil fuels, such as oil, natural gas, and coal. JSEE introduces new and cutting-edge processes and technologies across all areas of energy production, transportation, and transmission, including fossil fuels and renewable energy. In the areas of fossil fuels, JSEE presents research and practical applications in the areas of oil, gas, and coal exploration and production, pipelines for oil, natural gas, and LNG transportation, refining, remediation, and many other topics central to the oil and gas and coal industries. In the areas of renewable energy, JSEE presents research and practical applications in wind and solar forecasting, transmission, and materials, such as wind turbines and solar panels. The economics and environmental science involved in energy production will also be covered in JSEE, along with any other issues endemic to the field.

Announcement**

### Editorial Board

**Festus Adebisi**, *Department of Chemistry, Obafemi Awolowo University, Nigeria*, **Ralph Chadeesingh**, *KBR (Kellogg, Brown & Root) UK*, **George V. Chilingar**, *Department of Civil and Environmental Eng., University of Southern California, USA*, **Arif Hepbasli**, *Department of Energy Systems Engineering, Yaşar Universit, Turkey*, **Rafiq Islam**, *Dalhousie University, Canada*, **Ripudaman Malhotra**, *SRI International, USA*, **Juan Murgich**, *Centro de Química, IVIC, Venezuela*, **Gilberto Espinosa Paredes**, *División de Ciencias Básicas e Ingeniería., Universidad Autónoma Metropolitana-Iztapalapa, Mexico*, **Vincenzo Piemonte**, *Università Campus Bio-Medico di Roma, Italy*, **Sergio E. Quiñones-Cisneros**, *Universidad Nacional Autónoma de México, Mexico*, **Ljiljana Radovanovic**, *University in Novi Sad, Serbia*, **Dr. Richard Dawe**, *Professor Emeritus in Petroleum Studies, University of West Indies*, **Dr. Alireza Bahadori**, *School of Environment, Science and Engineering., Southern Cross University, P.O. Box 157, Lismore., NSW 2480, Australia*, **Dr. Chunshan Li**, *Chinese Academy of Sciences, China*, **Dr. Herman Rieke**, *Professor, University of Louisiana Lafayette, USA*

### The Editor

**Dr. James G. Speight**, who has doctorate degrees in Chemistry, Geological Sciences, and Petroleum Engineering, is the author of more than 45 books in petroleum science, petroleum engineering, and environmental sciences. Dr. Speight has served as Adjunct Professor in the Department of Chemical and Fuels Engineering at the University of Utah and in the Departments of Chemistry and Chemical and Petroleum Engineering at the University of Wyoming. In addition he was a Visiting Professor in Chemical Engineering at the following universities: the University of Missouri-Columbia, the Technical University of Denmark, and the University of Trinidad and Tobago. Dr. Speight has been elected to the Russian Academy of Sciences and received numerous awards, including the Gold Medal of Honor and the Scientists Without Borders Medal of Honor, both from the Russian Academy of Sciences, and the Einstein Medal for outstanding contributions and service in the field of Geological Sciences.

### JSEE OFFERS

- ▶ Original research articles
- ▶ Review articles
- ▶ Brief reports
- ▶ Special thematic issues
- ▶ Prompt reviewing and publication

### WHERE TO SUBMIT

Manuscripts should be submitted through the online system at: <http://jsee.msubmit.net/>

First-time users need to register. The registration and the uploading of manuscript and figures are intuitive but there are also help files and methods to contact us if you have problems.

Sign up for a sample copy at [www.scrivenerpublishing.com](http://www.scrivenerpublishing.com)
